ESTABLISHED 1846. NEWPORT, R. I., SATURDAY, APRIL 29, 1911. PRICE TWO CENTS.

PLENTY OF ROOM FOR YOUR CHINA!

It is not enough that this commodious China Cabinet is built of selected mahogany and consequently very strong, for the designer planned to place on the market a cabinet of unusual roominess—how well he has succeeded is partially shown by the picture.

Back of the top shelf is a heavy plate glass mirror, which gives the effect of yet greater space within the large glass door. It is certainly

A CABINET "DE LUXE."

You will remark at once upon the unusual care that was exercised in the making—the finish is superior. The door swings noiselessly and the cabinet itself can be easily moved from place to place. All in all it is a value that well deserves immediate recognition at the special Titus price of - - - - - - - $31.50

A. C. TITUS CO., 225-229 Thames St

GATES OF CANTON ORDERED CLOSED.

Li, the Taotai, Assassinated by a Body of Rebels.

Disloyalty of Troops Causes Excitement Among Peaceful Citizens

HONG KONG, April 29.—Li, the taotai of Canton, has been assassinated by the rebels, who are again strong. The gates of the city have been closed. The loyalty of the troops is doubted, and this fear has caused much excitement among the peaceful inhabitants of Canton. Refugees arriving here confirm only reports of the uprising at Canton, which appears to have been instigated by anti-Manchus, who went to that city from Macao and Hong Kong and spread the revolutionary propaganda among the troops, at a time when they were nursing several grievances.

Hundreds of rebels have been killed or wounded in the fighting, which began with the attack upon the viceroy's palace Thursday. Brigadier General Chung was mortally wounded while attempting to suppress the revolt, and died yesterday. Two British torpedo boat destroyers have been sent to Canton from here.

GOES TO RENDER AID.

United States Gunboat Wilmington Sails from Hong Kong to Canton.

WASHINGTON, April 29.—United States gunboat Wilmington sailed today from Hong Kong for Canton, to render any assistance necessary to American citizens, on account of the disturbed situation at the latter place.

NOT WHOLLY PLEASING.

Attitude of Chinese Toward Russians in Mongolia to be Investigated.

ST. PETERSBURG, April 29.—Lieutenant General Sukhomlinoff, the minister of war, left today for a two months' inspection in the Far East and Mongolia. The trip was undertaken as the result of the conditions in the Far East, as disclosed in a report recently received by the foreign office from the Russian minister at Pekin. This report had to do, among other things, with the attitude of the Chinese toward the Russians, which it is reported is not wholly pleasing to this government.

WITHOUT PRACTICAL RESULTS.

Delegates to International Plague Conference Fail to Agree.

ST. PETERSBURG, April 29.—A semi-official telegram from Mukden says the foreign delegates to the international plague conference, which closed in that city yesterday, are agreed that the conference was without practical results. The delegates split into three camps, those from the United States and Great Britain siding with the Chinese, while Germany and Austria formed a connecting link between this trio and the representatives of Russia, Japan, France, Holland, Italy and Mexico. The Chinese took the ground that they could consider only practical suggestions. In connection with the fight against the pneumonic type of plague, and accordingly the attempts of the other groups to broaden the scope of the conference proved futile.

THE STANLEY RESOLUTION.

Bill Provides for a Committee to Investigate the Steel Corporation.

WASHINGTON, April 29.—The House committee on rules began consideration today of the Stanley resolution for the appointment of a special committee to investigate the United States Steel Corporation, and to inquire into any violation by that corporation of the anti-trust, interstate commerce, and national banking laws. George B. Hampton, representing Farmers Granges of Maine, Pennsylvania, Kentucky, Colorado and Washington, appeared before the committee and declared that the investigation had the unanimous endorsement of his organizations. Hearings on the resolution will be held next week.

PRICES CONSIDERABLY LOWER.

Standard Oil Company Announces Reduction in Refined Petroleum.

NEW YORK, April 29.—The Standard Oil Company today announced a reduction of 15 cents per 100 gallons in refined petroleum, making refined in cases $8.75, refined in tanks $3.75, standard white, New York $7.25 and Standard white, Philadelphia $7.25.

STEAMERS REPORTED.

Boston, April 29, Pagenturn, from Calcutta.

LATEST NAVAL NEWS.

Orders to Officers and Movements of Vessels Reported.

[Special despatch to The News.]

WASHINGTON, April 29.—The following orders to officers were announced by the Navy Department today:

Commander E. W. Eberle, detached from the bureau of navigation, Washington, and ordered to command the Atlantic torpedo fleet.

Lieutenant Commander L. M. Overstreet, detached from the Delaware and ordered home and to wait orders.

Lieutenant C. C. Deloch, detached from the naval gunning grounds, Indian Head, Md., and ordered to the Delaware as ordnance officer.

Lieutenant H. A. Baldridge, detached from duty as assistant to the director of target practice and engineering competitions and ordered to the Minnesota as ordnance officer.

Ensign O. Smith, detached from the Yankton and ordered to the South Carolina.

Passed Assistant Surgeon P. R. Stadtaker, detached from the naval station, Culebra, Porto Rico, and ordered home and to wait orders.

Assistant Surgeon C. W. Shepard, detached from the naval station, Culebra, and ordered home and to wait orders.

Chaplain L. P. Reynolds, detached from the Delaware and ordered home and and to wait orders.

Chief Gunner T. B. Watson, ordered to the Naval Training Station, Newport, R. I.

Gunner T. Nylud, ordered to the works of the E. W. Bliss Company, Brooklyn.

Chief Machinist B. Smith, detached from the Dixie and granted sick leave for two months.

Machinist C. L. Phillips, placed on the retired list, from April 24.

The following changes of officers on the Asiatic station were reported to the department by cable from the commander-in-chief:

Lieutenant G. C. Pegram, detached from the command of the Paraguia and ordered to the Monadnock.

Ensign L. B. Anderson, detached from the Wilmington and ordered to the Saratoga.

Ensign H. M. Conley, detached from the Saratoga and ordered to the Wilmington.

Ensign R. V. Lowe, detached from the Molineau and ordered to the Pompey.

Midshipman H. T. Settle, detached from the Saratoga and ordered to the Callao.

Passed Assistant Paymaster E. D. Stanley, ordered to treatment at the naval hospital, Canacao.

Passed Assistant Paymaster W. J. Hine, detached from the naval station, Cavite, and ordered to treatment at the naval hospital, Canacao.

The following movements of vessels were reported to the department:

Arrived—North Dakota and Hannibal at New York, Drayton at Hampton Roads.

Sailed—Castine, from Hampton Roads for Annapolis; Wilmington, from Hong Kong for Canton.

Lord.

PROMOTION DELAYED AWHILE.

Captain Austin Knight Passes Examination for Grade of Rear Admiral.

WASHINGTON, April 29.—Captain Austin M. Knight, U. S. N., recently acquitted by a court-martial of charges of negligence and inefficiency in connection with the sinking of monitor Puritan, has passed his examination for promotion to the grade of rear admiral. His promotion has been delayed several months pending the result of the court-martial.

FAVORS THE FREE LIST BILL.

Simply to Recoup Farmers for Losses Under Reciprocity.

WASHINGTON, April 29.—Representative W. S. Hammond of Minnesota, the only Democratic member of the ways and means committee who voted against the Canadian reciprocity bill in the House, said in a speech in that body today that he would support the Democratic free list bill only because it would give some return to the farming interests of the country for injuries which they are likely to receive as a result of Canadian trade agreement. Mr. Hammond said he believed the Canadian trade agreement not in line with Democratic policies as expressed in previous years. Since the agreement apparently is destined to go into effect, he said, the free list bill should be passed also.

"I am not inclined to favor additions to the free list," said Mr. Hammond, adding that he favored a low revenue tariff distributed over a wide range of imports. "I opposed the Canadian trade agreement because it seems to me that it takes away from the American farmer advantages given other classes under our tariff laws, and I favor the present farmers' free list bill because it is an attempt to give to the farmer some kind of a market. If it were not for the Canadian trade agreement, which it seems to me absolutely deprives a large and important class of our citizens of advantages which other classes obtain under our tariff laws, I would not deem it so necessary or advisable to enact the legislation now under consideration."

THE GOULD—GRAHAM WEDDING.

Third Marriage Within a Year in the Railroad Magnate's Family.

NEW YORK, April 29.—The third wedding within the year in the George J. Gould family took place this afternoon, when Jay Gould, second son of the railroad magnate, and Miss Anne Douglas Graham, only daughter of Mrs. Hubert Vos, were married at St. Thomas' Church. The bride, whose mother before her marriage was Princess Kaiklani, of Hawaii, was given away by her step-father, and Kingdon Gould was the best man. The ceremony was performed by Rev. Dr. Ernest M. Stires, rector of the church. The floral decorations of the church were pink and white. After the reception, Mr. and Mrs. Gould will probably go to the Adirondacks for their honeymoon. They will go to England later, as the guests of Lord and Lady Decies. The latter is a sister of Mr. Gould.

The wedding presents, which were said to be costly and numerous, were not displayed. Jay Gould's gift to his bride was a house, which is to be erected on Fifth avenue.

WRIGHT BROTHERS WIN IN PRINCIPLE.

Contention of Infringement of Patents Upheld.

No Definite Decision in Suit Against French Manufacturers.

PARIS April 29.—In a decision handed down today by the third civil tribunal in the suit of the Wright Brothers against several French aeroplane manufacturers, for an infringement of patents, the court upheld the contentions of the plaintiffs in principle, but declared that it did not wish at present to render a definite decision, as the science of aviation is too new to permit an arbitrary finding in such a case. Therefore, the court appointed three experts to investigate whether there exist aviation discoveries calculated to disprove the priority of the American aviators' inventions and patents.

The Wright suit against Santos Dumont, however, was dismissed, on the ground that the defendant constructed aeroplanes only for his personal use.

In the suit instituted at Paris, Wilbur and Orville Wright alleged that the defendants had infringed their patents, which covered inventions peculiar to their machines, laying special stress upon the warping wing principle, which they claim to have developed and patented in 1903. The defendants disputed the priority of the Wright discoveries.

EXCITEMENT AT THE PLAZA.

Shabbily Dressed Man Attempted to See Mrs. O. H. P. Belmont.

NEW YORK, April 29.—There was no end of excitement in the Hotel Plaza this morning, to which Mrs. O. H. P. Belmont was an unwilling contributory cause. A shabby man, who says he has no home and gave his name to the police as James Burke, would not take the word of the clerks that Mrs. Belmont was not in the hotel. He was shown to the door but re-entered, found his way to the second floor, and was caught trying the doors. When he saw the house detectives coming he ran to a hall window opening on the roof of the dining room, let himself down on the roof, clambered over it to another hall window, and was overtaken as he was climbing into the corridor. When the detectives seized him he fought like a madman and shouted Mrs. Belmont's name until it could be heard in the streets. Overpowered he was arrested and taken to a police station.

"What made you think Mrs. Belmont was in?" asked the magistrate when Burke was arraigned.

"Why, Mrs. Belmont is my wife. I guess a man ought to know where his wife is?" replied the prisoner.

He was fined $10 and lacking the money, went to jail.

CHICAGO'S LABBOR TROUBLES.

City's Industrial Condition Worse Than for Several Years.

CHICAGO, May 29.—As "May day" approaches Chicago's industrial horizon is more clouded than it has been for several years. Wage disputes and jurisdictional controversies involving more than 45,000 men prove a disturbing factor and may result in a number of strikes and lock-outs next week. In point of numbers the building trades war is the most serious of the impending labor difficulties.

HINDERED BY PASSING CLOUDS.

Astronomer's Observations of Eclipse of Sun Partly Successful.

VAVAU, Tonga Islands, Pacific Ocean, via Suva, Fiji Islands April 29.—Astronomer Banachel, head of the Australian astronomical expedition, says that his observations of the eclipse of the sun today were only partially successful, being interfered with by passing clouds.

IN DISTRESS AT SEA.

Haytian Warship Nord Alexis, Carrying Political Prisoners.

CAPE HAYTIEN, Hayti, April 29.—News was received here today that Haytian warship Nord Alexis, upon which it is supposed there were a number of political prisoners, was in distress off Port de Paix.

AN ALIBI MAY BE PROVED.

McNamara in Rochester Few Days Before Los Angeles Explosion.

ROCHESTER, N. Y., April 29.—According to the register of a local hotel John J. McNamara, accused of complicity in the destruction of the Los Angeles Times building, was in this city five days before the date of the explosion, in company with other labor officials. He left here September 25. Local union labor men suggest that McNamara may be able, through them, to prove an alibi. McNamara attended the Convention of Bridge and Structural Iron Workers while here.

Bequests to Public Institutions.

CAMBRIDGE, Mass., April 29.—Numerous bequests to charitable institutions, amounting in all to $23,500, are among the provisions of the will of Mrs. Adalaide P. Bailey of Everett filed for probate today. The bequests include: American Baptist Home Missionary Society, $5,000; Woman's Home Missionary Society (Baptist), $2,000; Haverhill, Mass., Public Library, $4,000; Colby Academy, New London, N. H., $1,000.

Hairbow and Sash Ribbon, extra good quality 25c, 29c and 39c a yard.

Bring the boys and girls as we are well prepared.

THE HESS-LEYS CO.

CONFESSES AGAIN.

McManigal Admits More Than Fifteen Dynamiting Jobs.

LOS ANGELES, Cal., April 28.—Ortie E. McManigal, who is jointly accused with the McNamara brothers in a country-wide dynamite plot attributed to the iron workers, has broken all ties which bound him to the McNamaras, and it is evident that from this time on he is to take his chances on his own account.

For more than three hours he sat in a comfortable chair in District Attorney Fredericks's office and betrayed his companions, John J. McNamara and his brother, James B. McNamara. When the party broke up McManigal looked white and frightened for the first time since his arrival here. Fredericks and Hammer exultant and Brain triumphant.

"Yes, he's confessed practically all that we want to know," said one of the detectives present at the interview.

Later it was learned that McManigal had admitted more than 15 "jobs" done by himself, either with or without assistance, implicated James B. McNamara in the explosion at the Times building, the bomb explosion at the plant of the Iroquis Iron Company in South Chicago February 21, the partial wrecking of the viaduct on the McKinley Traction system at Springfield, Ill., March 8, the Milwaukee Western Fuel Company at Milwaukee March 16, the wrecking of the ore conveyor of Richards & Mather at North Randall, Ohio, and more than a score of other explosions, some of which the listeners to the confession had never thought of connecting the trio with. McManigal began his statement by repeating his declaration that he had nothing to do with The Times "job." "That was pulled off while I was in the East," he said, "and I was never even told about it until I met McNamara in Indianapolis, 10 days after the explosion. Both the brothers were desperate. From all that I could gather from their talk to me, James McNamara had made a slip; he forgot that a morning newspaper office is not empty when he set the time for the explosion, and they were pretty much jolted up over the death list."

McManigal was then questioned as to how he placed the bomb that wrecked the Llewellyn Iron Works, and went into detail of how he wrecked that plant on Christmas morning. Later, in detailing the plans of the gang, he declared that they proposed to wreck the famous Los Angeles aqueduct, and that various other explosions had been planned for Los Angeles, after the general strike, which is proposed to call for May 1.

He repeated his statement that he received $200, and all his expenses for such of his jobs, and gave details of how he had "pulled off" several explosions in the East.

MADERO'S PLAN ACCEPTED.

El Paso Selected as Place for Holding the Peace Conference.

EL PASO, Texas, April 28.—The selection of El Paso as the place for holding the formal peace conference, and the naming of Judge Francisco Carbajal of the Mexican supreme court as the federal commissioner, were important developments in the peace situation today. Judge Carbajal is known to Madero by reputation only, but the insurrecto leader considers the appointment as satisfactory.

The return of General Bernardo Reyes to Mexico is viewed with uneasiness by Madero, according to a statement which he gave out during the day.

General Navarro's letter to Madero follows: "I have been instructed by my government that the government accedes to your wishes with regard to the meeting place of the peace commissioners, to wit, on the Mexican side of the dam lying between the city of Juarez and your camp. I am also instructed to inform you that the commissioner who represents the government left Mexico city last night."

Judge Carbajal, the peace commissioner, is a jurist of the higher attainment, and considered a man of integrity and independence of character. He is about 45 years old.

General Madero, it is reported, may appoint more than one commissioner to represent him. It is regarded as certain that Dr. Vasquez Gomez will be a member of the commission, as Madero trusts him implicitly.

GRISCOM QUITS LEADERSHIP.

Roosevelt's Friend Withdraws from Presidency of County Committee.

NEW YORK, April 28.—Lloyd C. Griscom, former ambassador to Italy and a close friend of ex-President Roosevelt, resigned tonight as president of the New York county Republican committee. In his letter of resignation sent to Colin H. Woodward, vice chairman of the committee, Mr. Griscom says that owing to an illness of several weeks he had been advised by his physician to give up exhaustive political duties.

During President Taft's visit yesterday and the day before, Mr. Griscom and other Republican leaders were in conference with the President, and it is said that Mr. Griscom's retirement was then discussed.

Mr. Griscom was asked if he might not be appointed ambassador to Germany, as some rumors have had it but he said he had retired from the diplomatic service for good and intended to devote himself to law practice as soon as his health is restored.

PROGRESS IN TRADE SLOW.

Reports to R. J. Dun & Co. Show Weather Has Benefitted Business.

NEW YORK, April 28.—Despatches to R. G. Dun & Co. indicate that general business feels the stimulus of more seasonable weather, although progress is still slow. Higher temperatures have benefitted retail trade at Boston and jobbing demand in dry goods and staple merchandise is larger, with leading houses in some lines reporting sales in excess of last year's. The situation in textiles continued unsatisfactory, although an increase of duplicate orders are being received by some mills.

Total bank exchanges this week at all leading cities in the United States are $2,429,541,582, a decrease of 7.9 per cent as compared with the same week last year.

BRIBE CHARGE IN TENNESSEE.

Legislator Alleges Offer of $1,500 to Vote with "Regular" Democrats.

NASHVILLE, Tenn., April 28.—Out of Tennessee's legislative deadlock this afternoon came a development bordering on the sensational, in the publication of a despatch from Birmingham, declaring that a bribe fund of $1,500 had been offered to Representative J. Q. McDonald of Overton county by Judge E. C. Goodpasture of Livingstone, providing that Mr. McDonald agree to bind himself to vote with the so-called "regular" Democrats on all questions coming before the legislature. This alleged agreement Mr. McDonald claims that he holds in writing.

In a statement to the press at Birmingham this afternoon Mr. McDonald, one of the "insurgent" legislators, who quit Tennessee to hold no further legislation, verifies the published statement that a bribe was offered to him providing he voted with the "regular" Democrats in the legislature, who were defeated in the late governorship contest by a fusion of insurgent Democrats and Republicans.

Goodpasture was shown Representative McDonald's statement this afternoon. He denied that McDonald held a written proposal as described. He admitted that there had been a typewritten statement which pledged Representative McDonald to vote for the repeal of the election law and a state dispensary law, but Goodpasture declares that McDonald did not sign it, and Goodpasture further asserts there was no pecuniary consideration involved.

FIGHT TO BE LONG AND BITTER.

Reciprocity Will Keep Premier Laurier from Coronation.

OTTAWA, April 28.—Sir Wilfrid Laurier, the prime minister emphasizing today the determination of the Canadian government to ratify the reciprocity agreement with the United States, said he would not go to England to represent the Dominion at the coronation of King George if the Conservative opposition persisted in obstructing ratification of the compact. The prime minister said also that continued opposition would mean his failure to be present at the imperial conference, as he would not leave his homeland until he was assured of favorable action on the pending question.

It is generally accepted here that the premier will not go to England this year, and that the fight at Ottawa over reciprocity will be prolonged and marked by a good deal of bitterness.

EIGHT-HOUR BILL PASSED.

Measure Twice Vetoed by Former Governor Draper.

BOSTON, April 28.—By a vote of 149 to 61, the house passed, to be engrossed, the bill providing for an eight-hour day on all public work. This bill was twice vetoed by former Governor Eben S. Draper.

By a vote of 87 to 123 the house refused to add a referendum clause providing that the matter be referred to the people at the next state election.

STOCKHOLDERS RECEIVE CHECKS

Those Who Gave Dowie Their Property to Receive What is Left of It.

CHICAGO, April 28.—The 5,000 or more persons all over the world who gave the late John Alexander Dowie their property that he might found his city of Zion north of this city, will receive what is left of it—12.3 cents on the dollar of their money. Checks have been mailed to 678 of the "stockholders" in every corner of the world.

WHAT IS BEST FOR BABY'S TENDER SKIN

Because of its delicate, sanative, emollient properties, united with the purest of cleansing ingredients and most refreshing of flower odors, Cuticura soap is the mother's favorite for preserving and promoting skin and hair health of infants and children. In the treatment of distressing, disfiguring eruptions, from infancy to age, no other method is so pure, so sweet, so speedily effective as warm baths with Cuticura soap and gentle applications of Cuticura ointment. No other costs so little and does so much.

THERE IS A DIFFERENCE

Between Promises and Actual Results.

Promises won't overcome hair trouble. The manufacturers of Newbro's Herpicide promise nothing which is not justified by an intelligent use of this preparation. The desired end ultimately becomes an accomplished fact. This is the reason that Herpicide has thousands of satisfied friends all over the world.

By keeping the scalp clean and healthy and destroying the dandruff germ, Newbro's Herpicide makes beautiful hair. Herpicide prevents the hair from falling and allows it to grow unhindered and naturally except in cases of chronic baldness which is incurable.

One dollar size bottles are guaranteed by all druggists to do these things.

Send 10c in postage for sample and book to The Herpicide Co., Dept. R., Detroit, Mich.

Applications obtained at the best barber shops.

REPORTS FROM GRAND COUNCIL.

Representatives and Those Elected to Office Speak of Work of the Royal Arcanum.

Coronet Council, Royal Arcanum, had an interesting meeting Friday evening, when the representatives to the annual meeting of the Grand Council made their reports. The two representatives spoke interestingly and the members of the local Council who had been honored with election to office and committees in the state organization also had something to say. The work of the Royal Arcanum Hospital Service Association was discussed somewhat at length and the report of the delegate to the field day meeting spoke of the plans for the meeting at Rocky Point Saturday, July 29, much enthusiasm being shown among the members of Coronet Council concerning the event. There is a promise of a large number of Newport Arcanians at the gathering and a considerable representation from this city in the various athletic contests which will be held at that time, the Newporters promising to give the upstate athletes a hard rub for the supremacy. Suggestions were made of a probable fraternal visit of members of Coronet Council to Pocasset Council in Fall River some time next month.

At the business meeting two new applications for membership were received, making five now pending, and it is expected that there will be a class initiation at the first meeting in May. At the close of the business session a collation was served by the entertainment committee, under the direction of the orator, Albert E. Honeyman, and a pleasant social time was had, with cards and other features.

ROCKEFELLER'S ANNUAL CHECK.

John D. Rockefeller's check for $100,000 has just passed through the hands of Charles W. Perkins, treasurer of the American Baptist Missionary Union. This annual gift from the multimillionaire has no conditions nor specific purposes mentioned in the letter accompanying this check. It is customary for the treasurer to send Mr. Rockefeller a statement of the business; just what has been received from all sources, and something regarding the appropriations for the coming year. Mr. Rockefeller gives this his attention and makes out his check according to the needs as shown by these printed figures.

He has done this ever since the missionary work of this denomination was centralized in this society. Long ago, when he could spare only 50 cents from his meagre salary, he sent that to swell the funds of his own church missions. The cash book in which that was recorded is still one of his most cherished possessions.

MIDDLETOWN.

[Regular correspondence of the News]

The spraying outfit used this spring on the island is a great improvement over previous years, being much larger and better equipped. A gasolene engine is arranged at the back of the cart, so that one man can operate each wagon alone, whereas last year a heavy hand pump was used, necessitating a second man. Extra lengths of rubber tubing are of special assistance in reaching trees not easy of access.

The National Association for the Study and Prevention of Tuberculosis has solicited the interest of the various pastors on the island to speak on this subject Sunday, the day designated as Tuberculosis day.

Mrs. Alanson Spooner, who has been ill at her home on Wapping road the past 10 or 12 weeks, is much improved and able to be about the house.

The members of Holy Cross Guild are planning an egg supper early in May.

The annual whist given by the Oliphant Club under the direction of Mrs. Bernard Wilbur was held Friday evening at the Holy Cross guild house, with an attendance of more than 30. The prizes were fancy articles in china and were awarded as follows: First women's, Miss Annie Almy; second, Miss Ruth White; first men's, William Calvert; second, Fred White. Fruit punch, coffee and fancy wafers were served. The regular afternoon meeting of the club for this date was omitted in favor of the evening whist. The proceeds about $30, will be donated to the Middletown Free Library, to assist in the erection of book shelves.

PORTSMOUTH.

[Regular correspondence of the News]

Dr. and Mrs. Frederick DeM. Berman entertained recently in honor of Dr. Bertram's birthday.

Miss Alice Ayler entertained Miss Lois Slocum of Tiverton Thursday, in honor of the latter's sixth birthday. The table was prettily decorated in yellow and green. Mrs. Edward B. Ayler entertained Mrs. Henry Slocum Tuesday.

Mr. Daniel C. Munro and family have moved from Mrs. Hannah Macomber Cook's house on Turnpike road to the upper tenement in one of Mr. Henry C. Anthony's houses on the East Main road.

Mrs. Truman C. Main, who has been ill for a long time, is more comfortable.

Some fishhawks which nested in the Christian Church belfry, not discouraged by the destruction of their nest, are busy re-building it.

Mrs. C. Woodman Chase, who is in poor health, has gone to spend a few weeks with her parents, Mr. and Mrs. John Peabody of Middletown.

Mrs. Thomas L. Sullivan, who has been quest since the death of her husband, a few weeks ago, of Mr. and Mrs. George A. Wyatt, has moved her household goods to Newport and taken up her residence there.

Mrs. William W. Anthony has been nurse of Mr. Charles Brownell of Middletown, who has been sick all winter with asthma.

The road machine and steam roller are at work on the main road.

Mr. John King of Fall River is visiting his nephew, Mr. John Higgins, at his home near the Coal mines.

Mr. and Mrs. Frederick Tobin of Attleboro are visiting relatives in town.

Mrs. Alphonso Davol has been visiting at Ocean Grove.

At 8 o'clock Friday evening a large fire was seen in Tiverton, southeast of Stone Bridge, It continued to burn brightly, lighting the heavens for a long distance, until nearly 9 o'clock, and was in evidence for some hours.

NEW COMMANDER OF SCHOOLSHIP NEWPORT.

Captain Harry M. Dombaugh, U. S. N. (retired), has been selected to command nautical schoolship Newport, detailed to the board of education of New York by the Navy Department. Captain Dombaugh relieves Lieutenant Commander Lay H. Everhart, U. S. N., who has been in command some time past, and was relieved upon his own request. The Newport will sail the second week in May for the summer cruise, first along the Atlantic coast and then abroad.

MRS. BURKE-ROCHE CUT OFF.

[Continued from Eighth Page.]

a sum sufficient in their judgment for that purpose."

A few months later Mr. Work and his daughter had become reconciled and the divorce action had been commenced against Mr. Batonyi. The decree had been signed long before his death, but Mr. Work never changed his will. The fifteenth and last codicil is dated October 30, 1902, and provides that his grandchildren are not to live or associate in any manner with Aurel Batonyi, and are not to contribute in any way to his support.

In the petition for the probate of the will it is said that the value of the estate is "in excess of $10,000." It has been estimated to be more than $10,000,000. The executors named are Peter Cooper Hewitt, Francis B. Clark and Frank K. Sturgis. The Farmers' Loan and Trust Company is designated as a depository for all securities, provided its capital at no time falls below $1,000,000. Mr. Work recommends that the executors invest in first mortgage railroad bonds. Frank S. Black, one time governor, and J. Henry Work, filed the will.

PERSONALS.

....Announcement is made that Miss Emily A. Means, for 13 years principal of Abbott Academy, Andover, Mass., has resigned her duties, to take effect at the beginning of the next school year, September 14. The resignation has been accepted with regret by the trustees, who have as yet taken no action on the election of a successor. It is understood that Miss Means plans to devote much time to travel.

....United States Senator Swanson of Virginia is another illustration of the opportunities open to American youth. He obtained his education by saving part of what he earned as a farmhand and clerk in a grocery store. He is 49 years of age, a graduate of Randolph-Macon College, and a law graduate of the University of Virginia. He served in Congress several years and was governor of Virginia in 1906-10.

....Signor Leopold Francia, who taught Queen Alexandra to play the mandolin and guitar, makes the surprising statement that Her Majesty, when she was Princess of Wales, appeared on the concert platform on several occasions. Only a few ladies of the court besides the tutor were in the secret, and as she wore a gown similar to that of the other members of the women's orchestra, and always figured on the program as Countess Gage, the audience could never guess it was being entertained by an artist of such exalted rank.

MILKMEN POSTPONE ACTION.

The meeting of the Milkmen's Association called for Friday evening at the Middletown town hall was postponed. About a dozen members were present, and after waiting some time in anticipation that others would arrive it was finally decided to adjourn until after another meeting of the Newport Board of Health. The milkmen are still somewhat in the dark as to just what is expected of them, but hope to know more after the board has had another meeting on the subject. It was voted to retain the price of milk at eight cents.

DON'T EXPERIMENT.

You Will Make No Mistake If You Follow This Newport Citizen's Advice.

Never neglect your kidneys.

If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are common symptoms of kidney trouble, and you should seek a remedy which is recommended for the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Newport. Follow the advice of a Newport citizen.

George C. Kautl, 11 Cranston Ave., Newport, R. I., says: "I am not certain as to the cause of my kidney trouble but believe it was due to drinking impure water. Some time ago I was attacked by a dull ache across the small of my back. The kidney secretions also became scanty and painful in passage, and caused me considerable annoyance during the night. When I heard about Doan's Kidney Pills, I procured a box at Wright & Hay's Drug store and found relief upon taking the contents. The use of the second box effected a complete cure, for which I am truly grateful."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

A SPRING SONG.

I haven't got a moment,
I was up and dressed by nine;
I'm bound to get my shopping done
This morning, rain or shine.

I've come to town on purpose
To buy my summer hat,
And I won't go home without it;
My mind's made up to that.

Oh! here we are at Lichtenstein's
(I wish I could decide)
I've always gone to Francois.
But the woman there had died.

Yes, I want it very useful,
And yet it must be gay.
As I must wear it mornings
At church, and to the play.

Would you have it all one color,
Or with roses make it bright,
It's bound to be too heavy
And yet—I want it light.

I think I'll have it navy blue,
With just a touch of red,
Oh, no, I won't, I'll have it black—
But this one weighs like lead.

Would you wear it tilted forward,
Or back to show the hair?
They say they're wearing bonnets small,
But I prefer a flare.

I must not have an aigrette
Or any kind of bird,
(I wish I had not joined that league,
It's perfectly absurd.)

Their prices are ridiculous.
Was it forty-five, she said?
It's really lovely in the hand,
But does it fit my head.

"Don't you think you could take forty?
That's more than it is worth.
You think you can't. Upon my word,
I've the worst luck on earth."

I can't find anything to suit
(I wish that I were dead).
I think I'll have to give it up
And spend the spring in bed.

FANCIES.

"Fido, sit up and show the gentleman how to kiss me, and I'll give you some nice dinner."

"How did the ducks like the new runway you put outside of their coop?"

"All right; they came out flatfooted for it."

"I wonder why Mabel looks in the glass so often?"

"Maybe she has a grudge against herself."—[Cleveland Plain Dealer.

"You could own a brick block if you'd save what you spend on booze."

"I can beat that. Three glasses of booze and I own the earth."—[Toledo Blade.

Customer—Why do you put so many little berries under the top layer of big ones?

Grocer—That is done so that we can get more of them into a box.

"How much better Dickinson's lawn looks than yours."

"I don't know why it should. He borrows my lawn mower and I borrow his hose, and we both use Bronson's roller."

"My good man, I'll present you with a piece of soap if you'd like it."

"Thanks, leddy. I'd like it well enough, but when one is leading a peripatetic life, one can't incumber hisself wit' curios."—[Washington Herald.

The Lady—Will you send this rug on approval?

The Salesman—Certainly, ma'am.

The Little Girl—Hadn't you better tell him to be sure to get it there on time, mamma? You know we give the party tomorrow night?

OF

P.N. CORSETS

THIS WEEK.

While other corset manufacturers spend large sums in magazine advertising, the makers of the famous P. N. Corsets have chosen a different method of bringing home to the consumer the superior merits of their product. They select one representative store in a city and allow them a limited number of one of their best models to sell at just one-half the regular price, thus advertising their corsets and making lasting wearers of their goods.

We have been selected for this advertising campaign in Newport and offer this week a superb model of P. N. Corsets in the newest style, made of fine coutil, heavily boned with rust-proof boning, fitted with draw string and four hose supporters and trimmed with lace and ribbon. This is the regular $2 model, but will be sold for a limited time at

$1.00

Per pair. Sizes from 18 to 30.

We carry at all times a complete line of the P. N. Corsets selling from $1.00 to $5.00 a pair.

If you are not a wearer of this corset now is a good time to get acquainted.

THE NEWS IN PROVIDENCE.

The Daily News is on sale in Providence the evening of publication at Union Station and at the Rhode Island News Company, 59½ Weybosset street.

ALMOST READY TO ADJOURN.

At last the state appropriations bill has been passed, almost in the closing hours of the session. The amount was unchanged by the senate finance committee and it was evident when it was reported in an unaltered form that it was held back not because that action was necessary, but because it was desired to have it handy to use, in case it should be thought best, to secure the passage of other measures of interest or importance to the majority. The Democrats opposed several of the items, not in a whole-souled and hearty but in a sort of perfunctory manner, as though they knew they would be expected to do something of that sort and did not consider it best to disappoint those who were looking for such action. This opposition was indeed so faint-hearted as to have no influence at all with the Republicans, or even among the Democrats. It was accepted as a foregone conclusion that the bill would be passed in spite of this objection. Besides, the members desired their pay, which they could not receive until the appropriations were made, and so it went through without any strenuous attempt to hold up any part of it.

With this bill out of the way there is little more to hold the attention of the members and it will not be many days before adjournment will be taken. The amendment for the repeal of the property qualification clause has been defeated, the tax bills have been continued to the next session, though they may come up again, and the biennial election bill has been passed. There are plenty of other measures before the committees, some of which ought to be acted upon at this time, but there is no apparent disposition to do anything with them. That leaves the changes in the charter of the Southern New England Railroad Company, which is virtually the Grand Trunk road, to be disposed of. When that is done there will be practically nothing to hold the Assembly in session longer and final adjournment may be expected.

THE HEAD OF SHAKESPEARE.

Anybody can make a cipher out of the plays commonly attributed to Shakespeare. There are many Baconians, and each one of them has his or her own cipher. A sense of professional courtesy or the copyright law restrains them from using each others'.

Mr. Owen of Detroit, who is digging in the bed of the river Wye in England for the plays which Bacon composed and Shakespeare was permitted to sign, has introduced an entirely new feature or set of features—the features of Shakespeare's face. Coleridge once said he could write like Shakespeare if he had a mind, whereat Charles Lamb observed that all Coleridge lacked was the mind. Bacon of course could have written the plays attributed to Shakespeare if he had had Shakespeare's head, and this Detroit man says he did have it. He says Bacon murdered Shakespeare, cut off his head and buried it with the manuscripts and the keys and the ciphers and all that sort of thing in the concrete vault which he thinks he has struck in the bed of the Wye. The antiquarian says he has struck the abutment of a Roman bridge. It is possibly that he has merely gone down to bed rock.

However he has introduced two or three variations upon the Baconian hypothesis, and his ciphers are quite out of the ordinary. One is this idea that Shakespeare was murdered. We have quite circumstantial accounts of Shakespeare's last days, his death and funeral. Of course all are forged, for Bacon murdered him and dissected the body. The burial of the original plays in the bed of the Wye is explained by Bacon's fear of being burned for witchcraft if he were suspected of being a great dramatist. Somehow Shakespeare went through life very comfortably with that reputation, and there was never any suggestion of the rack or the stake for his portion. No explanation is yet offered of the murder of Shakespeare and the burial of his head with Bacon's original manuscripts, so that Bacon should at the same time be proved a murderer and a great playright. Owen is moderately amusing, but is piling things on a little too copiously.

WHAT HAPPENED TO THE ESCH BILL.

The Esch bill in the late session of Congress was designed to prevent the use of a highly poisonous form of phosphorus in making matches. It was denounced by the independent match manufacturers as a job of the combination or trust to drive them out of business, because the latter controlled the patents covering a perfectly harmless substitute. The President was exceedingly anxious that we should no longer lag behind all Europe in a matter of humanity and induced the big match company to dedicate its patents to public use.

Everybody interested in the bill supposed the measure to abolish the horrible disease of necrosis of the jaw would go through then without opposition, but it disappeared entirely; nothing more has been heard of it. At a meeting of the Connecticut conference of charities and corrections Professor Henry W. Farnam solved the mystery, and incidentally gave a view of a Congressman's moral sense and capacity for human feeling which is almost incredible. He said he was demonstrating to a member of Congress that matches made with the harmless sesqui-sulphide of phosphorus would light, not only on rough surfaces but on comparatively smooth paper. The Congressman picked up the match and scratched it on the seat of his trousers; it did not light and no more has been heard of the Esch bill.

The principal consumption of matches is by smokers, who for the most part do not carry a box and therefore do not use the safety match. They carry a few loose matches in their pockets and scratch them on their trousers. In order to accommodate them this and other Congressmen would leave necrosis of the jaw to accomplish its dreadful results.

If the parlor match, even made with the sesqui-sulphide of phosphorus, were legislated out of existence there would be fewer fires. The insurance men recognize it as one of the most prolific causes of conflagrations. In the interests of fire prevention as well as humanity the ordinary match ought to be suppressed. Yet the sesqui-sulphide match will light on almost anything except the trousers.

THE LATEST TEMPERANCE LEGISLATION.

The very latest thing in law-making to promote sobriety and demolish the demon, rum, is the idea of a member of the Pennsylvania legislature, who has introduced a bill to prohibit the sale of alcoholic beverages to any person who does not have a license to buy. Hitherto the law has dealt with the seller, and not very successfully; the honorable gentleman from Clarion country proposes to deal with the buyer.

The rate which he names is $5 a year, and as it is estimated that a million men and women in the Keystone state wish to drink occasionally something stronger than tea and coffee the author of the bill has visions of a great state revenue, but it seems to us that the rate ought not to be a uniform one. Licenses to sell distilled liquors always cost more than licenses to sell beer; there should be a similar gradation in the tax on buyers. Persons who "open the wine" are presumably opulent, and we suggest rates of $5 a year for beer, $10 a year for whiskey and $25 a year for wine drinkers. Champagne is an undoubted luxury, and as we have graded income taxes and graded inheritance taxes, why not graded drinking taxes?

As a measure of revenue there may be something in this scheme; as a measure of reform we can see nothing in it. If a man can buy a barrel of beer at $6 or $7 and sell it by the glass for close to $25; if he can make a mixture of wood alcohol and a few other deadly ingredients at a cost of 40 cents a gallon, as a Philadelphia magistrate charged the other day, and obtain $3.20 for it at the very low rate of five cents for a drink of two ounces, the margin of profits would enable the saloon keepers to buy the licenses and present them to their customers.

Even the revenue feature might be easily evaded. Why should not a dozen men use the same license, drinking in rotation? The "barkeep" can't be expected to know everybody and it would be impracticable to enforce a system of identification.

The city of Pawtucket Friday received authority from the General Assembly to hire $475,000 for various purposes—$175,000 for water works construction; $125,000 for sewer purposes, $125,000 for the erection and additions to schoolhouses, $40,000 for the purchase of land and the erection and equipment of fire stations, and $10,000 for public parks. Pawtucket is evidently branching out.

The United States Senate is at last fully organized and ready for business. Several important matters, including the Canadian reciprocity agreement, have been passed by the House and are awaiting the pleasure of the upper branch of Congress.

The skyscrapers in New York have grown so numerous that the weather bureau has been compelled to remove its headquarters, so that the higher buildings will not cut off free and unhindered access to the instruments.

The Lord Chamberlain of England has put a ban on the hobble skirt, prohibiting it at all court functions. The fashion is hardly worth so high an official setback.

The progressive Republicans in the Senate do not seem to have progressed very far in their committee fight.

Winter must be really over. The ice is leaving the Maine lakes and the fishermen are arriving.

Spring—and almost summer.

ORGANIZED LABOR'S NEED.

Intelligent and Right-Minded Leadership Essential for This Country's Welfare.

[New York Journal of Commerce and Commercial Bulletin.]

The one great need of organized labor in this country is intelligent and right-minded leadership. For years past it has been so grossly misguided that it has been brought into antagonism with the law-abiding sentiment of the community and has forfeited the sympathy of many of its best friends. It is incurring the danger of having to be treated as an enemy to society, against which it will be obliged to defend itself, unless there shall be a change in the temper and policy of those to whom authority is given to direct its course. Few oppose the organization of labor in theory or object to it in practice, so far as its avowed purposes for benefiting the workingman are concerned and so far as it pursues reasonable and lawful methods. It is admitted that, with the large scale of industrial operation in these times, the employment of great numbers in various trades and occupations, and the incorporation and organized management of capital, it is necessary for workingmen to be organized and affiliated in a way to be able to assert and defend their right to a fair share of the fruits of labor and fair treatment under the regulation of employment. Employers commanding capital and the means of production have the upper hand and some of them will always be disposed to take advantage of their position and abuse their power for selfish gain if there is no effective means of resistance.

Not only is organization a means of self-assertion and self-protection, but it may be made a means of improvement in the relations of labor and capital, of the workingman and the employer. It cannot serve that purpose if it is based upon the idea that there is a necessary conflict between the interests of labor and capital, that their relations are those of hostility and warfare. Their proper relation is that of co-operation for common ends, in the most effective production and the fairest distribution of its proceeds. Organization should be directed to the improvement of the working force to secure the best results with the least waste and loss, as well as to insure a just division of the fruits, and it may be so directed as to work for industrial peace and harmony. Without it there can be no contracts to give stability to employment and establish terms to which the employer and the employed may agree and by which they may be bound for their mutual benefit. There is advantage in collective bargaining if it is conducted with intelligence and and in a spirit of fairness and is carried out with fidelity to obligations assumed on each side. If labor unions are a means of making labor more effective and more honestly applied, of establishing equitable and stable relations with employers, and not a means of contention and warfare, they will offer advantages to workmen and employers alike which will make union labor preferred. Preference for it cannot be forced by coercion of workmen to join the unions or compulsion of employers to accept no other.

ASCENTS OF MOUNT ARARAT.

[Wide World Magazine.]

Ararat is not a mountain that is climbed every day, or even every year. Seventeen ascents have been recorded, and there is no reason to suppose that any have escaped notice. When the Right Hon. James Bryce, unaccompanied, made his remarkable ascent in 1876, of which he has written in a most entertaining book, he was told by every one whom he met in the vicinity of the mountain that the top had never been reached, and, what was more, that it never could be. Jinns and fiends and giants had prevented the rascally Kurds from even attempting to scale the terrible mountain and since the Ark grounded there mortal man had not been allowed to trespass on the sacred heights. Had not St. Hagop tried again and again to reach the summit in order to silence the sceptics about the Ark? But he found himself each morning, on waking, quietly deposited at the base, whence he started. Finally an angel presented him with a piece of the Ark for his pains, but told him to cease his attempts to reach the forbidden ground. That was in the fourth century of our era, but the piece of the Ark is still to be seen at the monastery of the Eltchmaidsin, where dwells the Catholicos of the Armenian Church. That Russians, or a stray lone Englishman, had really reached the top of Ararat was not to be thought of.

Times have changed during the last 34 years even at the base of Ararat. The railway now goes skimming along the great waste of the Garden of Eden; the Catholicos, or head of the Armenian Church, who dwells in sight of the snow-domed mountain, is an enlightened man who presses electric buttons, turns switches, and gives audience near a table covered with flypaper; and the Kurds, though they will not venture their worthless hides for more than two miles up are willing to admit that other people have braved the jinns for the third mile and the still more difficult surplus.

AROUND RHODE ISLAND.

More Than 50,000 School Children in Providence, 2,580 Being Employed.

Large Section of Burrillville Ravaged by Forest Fire—Saturday Evening Closing Plan.

The report of the supervisor of the school census, Gilbert E. Whittemore, presented to the Providence school committee, shows a total enumeration of 50,240 children in the city between the ages of 4 and 17, inclusive, last year. Of these, 25,078 were boys and 25,162 were girls. This enumeration was taken upon the request of the school committee for a census to take in one more year than that provided in the state laws, which calls for the enumeration of ages between 5 and 17, inclusive. On the state requirement the supervisor reports 47,074, as a total, with 23,489 boys and 23,585 girls.

According to the annual report of the age and employment certificates issued in Providence during the year ending December 31, 1910, 2,580 certificates were issued and of this number 186 were to children who either were 16 years of age at the time, or have since become 16. There were 3,746 certificates outstanding, and of these 1,978 were issued to boys and 1,768 were issued to girls. Of the 3,746 certificates outstanding, 1,547 were held by children under 15 years and 2,199 by children over 15 years of age.

A section of the town of Burrillville, north of Bridgeton, two miles long and 500 yards wide, was ravaged by one of the worst forest fires in the history of the town Friday. The fire was still burning, far beyond control, in the evening. In spite of the efforts of 100 men to check its course. Thus far only one building, a small barn, has been burned. The fire is the extension of a smaller blaze which started near the New Haven railroad tracks two days ago. The steady breeze Friday morning fanned the flames into dangerous proportions and the fire began to cut a swathe in a northeasterly direction. The course of the fire lay north of the Wallum Lake Sanitarium, which last year was nearly burned by a forest blaze. It came within 50 yards of the Burrillville town farm in the afternoon, the proximity of the flames frightening the inmates away from the place. The fire struck across the Ritchie estate, known locally as the "old distillery," now occupied by Edward Ducharme and his family. Mrs. Ducharme and a child were at home and fled. The barn was razed by the fire but neighbors saved the house. At night the blaze was not far from the home of Town Sergeant Edward Collins, who left his beat in Pascoag to aid in saving his home, if it should be actually threatened. The flames traversed several valuable strips of timberland, including those on the town farm and on the Tetreault farm. The timber comprised pine trees and the flames licked these pitchy trees up like so much tinder, the blaze roaring fully 30 feet into the air.

A petition to down-town Providence merchants to close their stores at 6 o'clock Saturday nights during July and August is to be circulated by members of the Consumers' League, which is made up of prominent women of the city, as a result of action taken at a meeting held at Hopeton House, R. H. I. Goddard's residence. The meeting was attended by about 60 women, and the decision to circulate a petition for presentation to the merchants was reached after an earnest discussion of the matter. Practically no other business was transacted and the organization adjourned to meet again soon, for the purpose of hearing the results of the work of circulating this document.

Senator Lippitt has introduced bills providing increased pensions for the following persons: Lucient E. Kent, formerly of Rhode Island, but now a resident of Germantown, Pa., who was a captain's clerk in Farragut's squadron; Abby E. Perkins, Pawtucket, widow of Lieutenant Benjamin G. Perkins, late of Company K, Seventh Rhode Island volunteer infantry; George L. Keach, formerly of Rhode Island, but now a resident of the Soldiers' Home, Virginia, whose service was in Company E, First Rhode Island light artillery Guards, and Companies F and B, Third Rhode Island volunteer heavy artillery; Eliza L. House of Providence, widow of George W. House, late of Company D, Ninth Infantry, in the Mexican war; Charles E. Turner of Hot Springs, S. D., and formerly a resident of Rhode Island, whose service was in Company B, Fourth Rhode Island volunteer infantry; Sarah M. Young of Providence, widow of John Young, 2d., late of Company H, Fifth Connecticut volunteer infantry; Daniel E. Corey of Apponaug, late of Company A, Tenth Rhode Island volunteer infantry.

Representative O'Shaunessy has introduced bills providing increased Civil War pensions for the following residents of Providence: Clara Boyce, widow of Henry A. Boyce, late second lieutenant in Company F, Third Maine volunteer infantry, to $21; Flora A. Williams, widow of Adelbert O. Williams, late of Company F, Fifth New Hampshire volunteer infantry, to $25; William Kiernan, late of Company M, Third Rhode Island heavy artillery, to $50; Catherine Rowley, widow of William Rowley, Jr., late of Company E, Second Rhode Island volunteer infantry, to $24; John Nelson West, late of United States brig Dragoon, to $30; George L. Nye, late of Company E, Second Rhode Island volunteer infantry, to $30; William H. Case, late of battleship Massachusetts, U. S. N., and Company G, Fourth Massachusetts volunteer infantry, to $40. Other bills are for the honorable discharge of William H. Riddendale, late a private of Company C, Tenth Connecticut volunteer infantry, and to refund certain moneys paid into the treasury of the United States through mistake by Frank N. Horton of Providence. Representative O'Shaunessy has also presented the petition of W. E. Barrett & Co., of Providence, favoring the passage of the Esch phosphorus bill, which they believe will prove to be the best solution of the problem now confronting the manufacturers of matches, and the petition of S. & B. Lederer & Co., manufacturing jewelers, and Potter & Buffinton, jewelers, all of Providence, urging legislation which will remedy the difficulty now experienced by jewelers in convicting thieves stealing merchandise in transit from one state to another. The difficulty has been caused through the necessity of proving in which state the thefts were committed.

Members of the Rhode Island Citizens' Historical Association held exercises at the North Burial ground, Providence, this afternoon at the graves of Stephen Hopkins, signer of the Declaration of Independence; John Brown, one of the men who burned the Gaspee, and Nicholas Cooke, governor of Rhode Island at the time. The exercises were preliminary to the anniversary of Rhode Island Independence day, May 4.

ISLETS OF THE PHILIPPINES.

There are about 3,140 islands and islets in the Philippine archipelago, some officials say more, but the exact number depends upon the minuteness of classification. One official might reckon as an islet what another discarded as a rock. They range in population from Luzon with nearly 4,000,000 inhabitants down to Ormoc with 17,000, so far as the larger units are concerned, but there are hundreds with but a score of natives on them. Some of the islets are so small where the archipelago tapers that they are but nameless dots on the War Department maps.

EAGLE CARRIES OFF PRIZE SHEEP.

An American eagle has carried off two Egyptian sheep from the country place of Robb De Peyster Tytus, the well known millionaire, at Tyringham, Mass. The eagle was of unusual size and descended from a high altitude with startling rapidity. It departed with one sheep and later swooped down upon another.

THE WEATHER.

BOSTON, April 29, 8 A. M.—Forecast for Boston and vicinity—Fair tonight, Sunday unsettled, probably showers; moderate, variable winds.

WEATHER CONDITIONS.

The weather still remains fair with generally clear skies in New England and the extreme northeast, and much cloudiness is still prevalent in all other portions of the country. Rain is falling in the Ohio valley, Middle Mississippi valley Alabama and Virginia, and snow flurries are reported in northern Wyoming. The eastern area of high pressure has moved southeastward and diminished. The western trough of depression is now central in western Kansas. The pressure is above the normal in northwestern districts. The temperature is as high as or even slightly higher than yesterday morning along the northeast coast, and in the interior and southwestern portions of the country, but is considerably cooler in the upper Missouri valley and the extreme northwest, because of the eastward movement of the high pressure area and the resulting northwesterly winds. In New York at 8 a. m. the temperature was 59, Washington 58, Jacksonville 67, St. Louis 62, Chicago 56, Des Moines 60, Kansas City 64, St. Paul 56, Denver 46, San Francisco 46 and Portland, Oregon 40.

PROPOSALS will be received at the Bureau of Supplies and Accounts, Navy Department, Washington, D. C., until 10 o'clock a. m., May 2, 1911, and publicly opened immediately thereafter, to furnish at the Naval Training Station, Newport, R. I., a ferry boat. Applications for proposals should refer to Schedule 3157. Blank proposals will be furnished upon application to the navy pay office, Newport, R. I., or to the Bureau. T. J. COWIE, Paymaster-General, U. S. N. 4-17-11.

A REAL SILVER WEDDING.

...Gifts and Gifts Make Their ...Memory Such for Alder- ...and Mrs. Leddy.

...evening Alderman and Mrs. ...Leddy were given a surprise ...their home on Franklin ...The occasion was their sil- ...wedding anniversary and the sur- prisers were those who had taken part in the wedding a quarter of a century ago. One of the liveliest was Harry Rooney, who had filled the role of best man at the wedding and was right there at the surprise party.

A little strategy was necessary, and this was executed by inviting Mr. and Mrs. Leddy out to supper. As soon as they left the conspirators took possession, and by the time they returned the house had been completely metamorphosed and turned into a bower for the celebration. Father Meenan was present, Mrs. Leddy being one of the old stand-bys of the church choir, and presented the numerous silver gifts which the friends had provided to make the event a real silver wedding. There was a supper and generally a pleasant time.

Mr. M. O. Sullivan of Hutchinson, Kan., who had been visiting his sister, Mrs. Leddy, remained over for the celebration, and among the others present were Mr. and Mrs. John McManus of Providence.

DEATH OF MRS. DANIEL GOULD GODDARD.

Mrs. Daniel Gould Goddard died this morning at the residence of her daughter, Mrs. Herman Kinzald, at Weymouth, Mass., in her seventy-fourth year. She was well known in Newport, having spent most of her life here and in Foxboro, Mass. Her husband was a wood carver and at one time worked for George E. Vernon & Co. Mrs. Goddard was a member of the Woman's Christian Temperance Union, the King's Daughters, and the Thames Street Methodist Episcopal Church. She was the mother of nine children, six of whom survive her—John Goddard of Bristol, Mrs. Joseph H. Buttock of South Scituate, Mrs. F. L. Suttock of this city and Mrs. Herman Kinzald. Miss Ella Goddard and Mrs. Harry Barker of Weymouth. The funeral will take place here and the burial at Wakefield.

LOCAL BRIEFS.

—Colonel G. R. Fearing has returned to New York.

—A quantity of material for Howard & Co. has arrived.

—Steam yacht Parthenia arrived from Bristol last night and sailed this morning.

—Mr. F. W. Vanderbilt's steam yacht Warrior is receiving extensive alterations at South Brooklyn.

—Mr. J. Allen Boone, who spent a good part of the winter in the Mediterranean and reached New York Thursday, is here on a short visit, and is looking well.

—Mr. Barney Williams, conductor on the 1 o'clock train from Boston and known to more than a generation of travelers, is confined to his home, the result of a fall from a car this week.

—Arrivals at the Perry House include J. B. Alexander, New York; W. T. McDonald, G. A. Small, Boston; G. W. Brown, Philadelphia; Frank Burke, Detroit; John G. Moore, Phillip Williams, Chicago.

—It looks as if the tulip beds on the Mall would be some time in making a display of color, though other beds about the city have been in bloom for several days. They are of course in more sheltered spots.

—Steam yacht Aloha arrived this morning from Havana. On board were Commodore and Mrs. Arthur Curtis James and a party. They came ashore in one of the yacht's boats and took taxicabs for the new James place on Telegraph hill.

—Miss Grace C. McLeish, long employed as a saleswoman at Herrmann's, has severed her connection with that firm and it is understood that she is to open a jewelry establishment in the store formerly occupied by the Adams Express Company, in the Newton building.

FOUR SUGGESTIONS GIVEN.

Dr. Rousmaniere Believes the Prayer Book Should be Revised.

BOSTON, April 29.—That the burial services are inadequate, that there is opportunity for overcoming listlessness in the office of the Holy Communion, that there is much room for additional prayers, and that the general confession and declaration of absolution at evening and morning services comes at the wrong time in the services, are four suggestions for the revision of the prayer book, made by Rev. Edmund S. Rousmaniere, D. D., rector of St. Paul's Church and formerly of Providence and New Bedford, in an article in the current number of the Church Militant, a publication of the Massachusetts Episcopal Diocese.

In commenting on the general confession, Rev. Dr. Rousmaniere says: "As soon as our service begins we are called to the outpouring of the deepest experience of our souls in a confession of sins. For this great mood of confession and repentance the congregation is, practically speaking, unprepared."

His suggestion of a remedy is to place the confession later in the service. The chief criticism of Rev. Dr. Rousmaniere is levelled at the burial service. He says: "Why should we continue to draw the artificial distinction between the living and the dead, which prevent us praying for our friends in the unseen as we have prayed for them in the seen."

IRON WORKS SALE COMPLETED.

Ore Deposits in California Hills to be Developed With New Plant.

SAN FRANCISCO, April 29.—The Call reports today that the sale of the Risdon Iron Works in this city to the United States Steel Corporation has been virtually completed. Important extensions are planned, says the Call, and in connection with the new works are deposits in the hills of California are to be developed.

AN INCREASE OVER LAST WEEK.

Clearing House Banks' Statement Shows Growth in Cash Reserve.

NEW YORK, April 29.—The statement of clearing house banks for the week shows the banks hold $10,693,175 more than the requirements of the 25 per cent reserve rule. This is an increase of $1,384,975 in the proportionate cash reserve as compared with last week.

W. K. Vanderbilt's Belfast Wins.

PARIS, April 29.—The Prix Tiberemun at Le Tremblay today, was won by W. K. Vanderbilt's Belfast.

Boston's New Harbor Master.

BOSTON, April 29.—Police Captain Francis J. Hurd has been appointed harbor master of Boston, succeeding Captain T. A. Pease, retired. Captain Hurd is a retired master mariner and has been stationed at the water front since 1903.

New Assistant Attorney General.

WASHINGTON, April 29.—It was officially announced today that Charles W. Cobb of San Francisco will be appointed assistant attorney general for the Interior Department, succeeding Oscar Lawler of Los Angeles, who recently resigned. Mr. Cobb is a former law partner of Francis J. Heney.

THE NEW JEWS' CEMETERY.

Burial Plot in the Braman Ground Enclosed With Iron Fence and Put in Fine Condition.

The burial plot in the Braman Cemetery, purchased for the Congregation Jeshuat Israel, has just been enclosed with a handsomely designed fence of wrought iron. The corner posts are of Vermont granite capped with limestone, giving a substantial appearance. There are two entrances at the front through a double iron gate from Long lane, and another at the other side of the cemetery, directly at the end of a path leading from the front gate. The sod is being taken up for the laying out of the paths and the premises are being put in general first-class order. Later they will be dedicated, this ceremony probably taking place on the Sunday preceding Decoration day.

The purchase of this land by the Jewish people has been in process for the past 10 years, starting first with six small lots and then buying lot after lot until the present premises were acquired. The money for improving the place is provided from funds granted to the Jewish Congregation of Newport through an act of the General Assembly, and from the accumulated interest of the Touro Cemetery fund. The work has been carried out by a committee consisting of State Treasurer Walter A. Reed and Mr. Max Levy, president of the Jewish congregation, who were appointed by the General Assembly.

The old Jewish cemetery on Touro and Kay streets came into the possession of the Jews of Newport more than 200 years ago, the ancient records showing that it was conveyed by deed February 28, 1677, from Nathaniel Dickens to Mordecai Campanalls and Moses Pachero. They, together with the Levys and others, were the then leading Jewish families of Newport.

While considerable expenditure will be made in preparing the new cemetery the old one is to be preserved always in the best of condition. The gravestones are shortly to be cleaned and repaired and an effort made to fill in the places where time has effaced the inscriptions. This cemetery, together with the Synagogue, is one of the historical show places of the city and tourists have been known to come here from far to see them.

The iron work at the Braman cemetery was done by Mr. Michael Shea, after a design by Mr. Max Levy, Jacob Mohr and John M. Friend were the contractors for the masonry work.

CONTINUED TO OCTOBER.

Suits to Dissolve Alleged Merger of Gould Lines Go Over.

JEFFERSON CITY, Mo., April 29.—The supreme court today continued to the October term the suits to dissolve the alleged merger of the Gould lines and other companies, and the ouster suit against 16 railroads doing business in Missouri, for alleged violation of the anti-trust laws in combining to fix passenger and freight rates. The continuance was granted on the showing of attorneys of the Gould lines that they could not argue now, because of the present re-organization of the roads.

THE PRINCESS ROYAL LAUNCHED

Largest Battleship Ever Built for British Navy Takes to Water.

BARROW ON FURNESS, England, April 29.—The Princess Royal, the largest cruiser battleship ever built for the British navy, was launched today and christened by Princess Royal Louise, after whom the vessel was named. The cruiser has a displacement of 26,500 tons, and turbine engines affording 70,000 horse-power. Her contract calls for a speed of 28 knots. She will carry eight 13.5-inch guns, besides smaller weapons.

TAYLOR SYSTEM ASSAILED.

Plan of Shop Management Before House Committee on Labor.

WASHINGTON, April 29.—Samuel Gompers, president of the American Federation of Labor, and James O'Connell, president of the International Association of Machinists, assailed the Taylor "scientific" system of shop management before the House committee on labor today, and urged the committee to report the Pepper resolution, providing for an investigation of the system. "The Taylor proposition," said Mr. Gompers, "would make more money for manufacturers and it also would kill more workmen. It is certain that a man cannot work under a 'speeding up' system for anything like the length of time that he can under normal conditions."

President O'Connell declared that the Taylor system tends to wipe out manhood and would destroy the genius of the American workman.

SIMILAR MEASURE DEFEATED.

Bill Before Congress for Creation of Retired List Among Life Savers.

WASHINGTON, April 29.—Representative Harris of Massachusetts has introduced a bill providing for the creation of a retired list in the life saving service of the United States, a similar measure having been defeated in the last Congress after a spirited fight. The bill provides that superintendents of life saving districts, keepers and members of crews shall be retired after 30 years of service, or at the age of 64 years and receive 75 per cent of full pay thereafter.

SHOCK CAUSES ALARM.

No Damage Reported from the Earthquake Felt at Santiago.

SANTIAGO, Cuba, April 29.—An earthquake was felt here this morning. No damage was done, but there was great alarm for a time.

DOWNING'S,

The Shop of Quality. 191 Thames Street.

GOMEZ LIKELY TO BE NAMED.

Madero May Select Him as the Insurrecto Peace Commissioner.

EL PASO, Texas, April 29.—It is expected that, with the arrival of Dr. Vasquez Gomez, he will be named by General Madero as the insurrecto peace commissioner, probably will be here Monday and the formal peace conference will it is hoped, begin the following day.

Abraham Gonzales, provisional governor of the state of Chihuahua, arrived last night. He expressed himself as none too confident of the success of the negotiations, but will assist in the attempt to bring about peace.

AMERICANS CRITICISED.

Mexico Asks Carrall if He Was Correctly Quoted in an Interview.

WASHINGTON, April 29.—The Mexican government has cabled to Vice President Corrall, who is traveling in Spain, to ascertain whether or not he was correctly quoted in the interview published in Mexico City, in which he is quoted as criticising Americans in connection with the Mexican revolution. The State Department was advised to this effect today by Ambassador Wilson.

The department also is advised that the federal forces at Mazatlan have refused to surrender that city in response to a demand from the insurrectos, and in consequence an attack is expected at any moment.

Senor Zamacona, the Mexican ambassador, today had a long conference with Assistant Secretary of State Wilson, in regard to the Corral interview. The belief is general here that there will be an official repudiation of the interview.

FIGUEROA'S PREDICTIONS.

Revolutionary Liberals of Mexico Will Soon be Fighting Madero.

LOS ANGELES Cal. April 29.—That the revolutionary liberals of Mexico will be fighting Madero as well as Diaz in a few weeks is predicted by Antonio Figueroa one of the leaders of the liberal junta having its headquarters in Los Angeles. "We have no more use for Madero," he said, in discussing the situation, "than we have for Diaz. They are both of the capitalistic class."

While awaiting the expected conflict with the combined forces the junta has found it necessary to commission John Kenneth Turner to try to bring about harmony in the ranks of their armed forces, in lower California. Following charges made by General Salinas against Citizen Price, the latter has filed with the junta counter charges against Salinas, who is in command of the garrison in Mexicali. Turner has been deputed to do what he can to bring about a better feeling between the two commanders. Price is said to be moving toward Tia Juana.

An automatic machine gun, it is said, has been purchased in Los Angeles for the liberal forces and has been shipped to a point on the border.

Captain Bremond Reaches Tangier.

TANGIER, Morocco, April 29.—Captain Bremond, in command of the column marching to relieve Fez, reached the capital April 26.

A NOTABLE CRUISE.

Success of the Delaware on Voyage to Chili—Endurance Run Exceeds Trial Speed.

Interesting data on the cruise of battleship Delaware to Chili, to which country she conveyed the body of the late Chilian minister to the United States, Senor Don Aribal Cruz, have been received at the Navy Department. The ship steamed from Hampton Roads January 31 and arrived at Rio de Janeiro February 16, where she remained six days. At that port she was visited by many officers, Brazilian and foreign, and excited much praise.

The ship arrived at Punta Arenas, Chili, March 2, remaining three days. The greatest cordiality and attention were manifested, and the ship's officers were entertained at a banquet attended by the governor and all the leading officials of the port. Valparaiso also was reached March 11, and on the following day the funeral of the late Chilian minister was held.

The President of Chili and his cabinet visited the Delaware March 14, and on that evening a dinner by the president to the officers of the Delaware marked the beginning of a series of entertainments which ended with the departure of the ship on March 21.

The Navy Department is in receipt of a wireless telegram from battleship Delaware reporting that at 7:30 o'clock Friday evening that vessel successfully completed a four-hour forced draught run at an average speed of 21.86 knots and that she was at that time continuing on a 24-hour full-power endurance run. The report states that everything is in excellent condition.

While the speed, 21.86 knots, is subject to correction, it may be assumed that it is approximately correct, and there is little doubt that the Delaware has exceeded her trial speed, which was 21.56 knots, notwithstanding the fact that the present run was made without preparation after the South American cruise of more than 17,000 miles.

CHARITY HORSE SHOW FOR BOSTON.

Arrangements are being completed for a "charity" horse show, to be given in Boston May 10 and 11, with two sessions each day, afternoon and evening. Several hundred entries already have been promised. A percentage of the receipts will be donated to some charity, which will be named by a committee composed of Miss Dorothy Forbes, Mrs. R. L. Agassiz and Miss Alice Sargent.

LOCAL BRIEFS.

—Mr. and Mrs. Marion McAllister Smith are in Athens.

—Steam yacht Parthenia, Mr. E. C. Converse, is in port.

—Mrs. M. S. W. Marsh has returned from Campello, Mass.

—Mrs. Ellen French Vanderbilt has returned from New York.

—Mrs. P. H. Powel gave a dinner, followed by bridge, Friday night.

—Mr. and Mrs. Charles C. Gardner have returned from their wedding trip.

—Mrs. George F. Cezzens has returned from a visit to her sister in Washington.

—Mrs. Lena Priester of Stapleton, Staten Island, is spending the season here, as usual.

—Mrs. Joseph F. Stone has returned from a visit to her daughter and son-in-law in New York.

—Mrs. McMahan wife of Diver Theodore McMahan, has ben spending six weeks in Washington.

—The children of Mr. and Mrs. Joseph Harriman have arrived at the Harriman house on Bellevue court.

—Mr. Cecil Barrel, nephew of Mrs. Theodore K. Gibbs, was married in Baltimore today to Miss Gady Gittings of that city.

—Mr. and Mrs. Williston A. Gidy have returned from California and are guests of Dr. and Mrs. John A. Young on Broadway.

—Captain W. P. Fullam, who has been spending 10 days leave of absence here, has returned to his ship, the Mississippi.

—Frederick H. Paine has sub-let for Peter D. Martin the Morrell Cottage on Ochre Point avenue to Eugene S. Reynal for the season.

—Mr. and Mrs. Arnold Hague are visiting their son and daughter-in-law, Mr. and Mrs. Ernest Howe, on Rhode Island avenue.

—Two revellers, who were fined $5 and costs each, interrupted the regular work of the police station this morning, the issuing of dog licenses.

—Simeon Hazard has rented for Mrs. Karl Heiberg of Stoneham, Mass., her cottage at the corner of Gibbs avenue and Gardner street to Lewis Brown.

—William Francis, Jr., and M. Shea of Boston and Mr. and Mrs. F. Smith and John L. Dean of Providence are registered at the United States Hotel.

—Mrs. Raymond P. Rodgers and her daughter, Rev. and Mrs. Roderick Terry, Mr. and Mrs. Lorillard Spencer and Mr. John T. Haire have returned from New York.

—King George and Queen Mary dined Friday night at "Forbes House" with the Earl and Countess of Granard. The countess was Miss Beatrice Mills of New York.

—The upper portion of the statue of William Ellery Channing, in Touro Park, is almost covered with bright green, a result of the weather, and in striking contrast to the bronze of the figure.

—Mrs. Herman T. Livingston, whose husband years ago built a colony of small cottages on the cliffs, opposite Cliff avenue, died at her residence in New York Thursday. The funeral took place today.

—Friday Mr. Alwyn Ball, Jr., completed contracts for a 99-day option to buy the Madison Square Garden property, New York, for $3,500,000. Mr. Ball is the owner of "Boolhilea," on the east shore, which he purchased from the heirs of Edwin Booth.

—Mr. and Mrs. E. C. Gunther have arrived from New York, where they have been spending the winter. Mr. Gunther and his son-in-law, Mr. Herbert A. Coles, recently returned from Bermuda. Mr. E. C. Gunther, Jr., is here from Chicago to visit his parents.

—The loss on the Stoneman fire has not yet been settled, and referees have been called for. Mr. Stoneman has appointed his lawyer, the insurance people have selected a Boston man, but the third cannot be settled upon. Mr. Stoneman says that he will agree to any reputable local business man, preferably men in the same line of trade, but the insurance people do not seem to be favorable to this.

—Mrs. William Grosvenor and her daughters, Miss Rose P. Grosvenor and Miss Anita Grosvenor, accompanied by Miss Rose Anne Grosvenor, will sail for Europe by the Amerika May 11. They will be in London for the coronation and return to Newport to spend July and August. During the absence of Mrs. Grosvenor her Newport cottage will be occupied by her daughters and sons-in-law, Mr. and Mrs. Dudley Davis of New York and Mr. and Mrs. G. Maurice Congden of Providence.

NOT IN ANY HURRY.

Democrats Taking Plenty of Time to Discuss Tariff Bills.

Leaders Seem to Believe That Debate Will be a Good Thing for Their Party.

WASHINGTON, April 28.—Time is of little object to the Democrats, judging by the manner in which they are willing to allow general debate to run on in the discussion of the tariff bills. The Republicans, even when they had a whole year before them, showed impatience in dealing with the tariff.

When the Dingley law and when the Payne law were under consideration there was a disposition to crowd ahead with all possible speed. Chairman Underwood, on the contrary, is satisfied to let the debate run on and give every man an opportunity to say all he wants to on the great subject of tariff. It is a very fruitful field of discussion, for few men understand the subject, and all can therefore talk without limit upon it.

Evidently the Democratic leaders are of the opinion that the more debate upon the tariff the better it is for their party. Besides, having been called in extra session, they are going to take their own time in getting away.

One effort at economy has failed. Congressman Cox of Indiana wanted to cut down the mileage of Senators and Representatives, but he was soon put under the steam roller. Mileage, next to salary, is the most important thing in a Congressman's life. He receives 20 cents a mile travel pay, which is a fat "take" when there is a thousand miles or near it to travel. Efforts have been made to have the mileage put on an actual expenditure basis, but they never accomplish anything.

"It makes me weary to hear those fellows telling what they think they know about farming and the farmers," remarked John Dwight of New York who was a farmer on a large scale in North Dakota and was a boy on a farm in New York. "Those fellows" were certain Republicans who supported the reciprocity bill. "What do Sam McCall, Ebenezer Hill and Nick Longworth know about farmers? continued Dwight. "All they have ever seen has been from a Pullman window or an automobile. We who have been on the farm know what real farming is, and it is a long way from what those ways and means members think."

Speaker Clark is obliged to try out the Democrats as presiding officers of the committee of the whole. It so happens that none of them was ever in Congress before when the Democrats had control of the House with three exceptions, and they were then too new to be put in important positions.

Clark gave Talbott of Maryland a chance the other day just as a little compliment to one of the old-timers. Talbott does not pretend to be much of a parliamentarian, but he is one of the men in the House who are liked by everybody, and in consequence he was given a round of applause when he ascended to the Speaker's chair.

"Oh, yes, Congress is at work," remarked a department man who had been told that the government clerks were not earning their wages. "I was up there one day when time was pressing in the last session. The Senate spent pretty much the entire day in a discussion as to the name of the first ship which crossed the ocean using steam. Pictures were exhibited, the tory was searched, and finally an illustrated publication was ordered the volumes of which sleep in the musty crypt. The same day the House engaged in an animated conversation as to whether a little side street should be widened or left as it had been for a century. Oh, Congress is a hard-working body!"

There is a Pennsylvania Congressman who was so delighted with the short and impressive prayers of the blind chaplain, Rev. Henry M. Couden, that he had a copy made every day and sent it to his wife. Now a step further has been taken. By order the prayer is printed every day in the Record as a part of the proceedings.

When you come to think of all the things which are stuffed into the Record it seems rather strange that the prayer, save on special occasions, has been omitted. The prayer is as much a part of what happens in the House as any other proceeding.

"You are eligible to membership in this club," said a member of the National Republican Club. "If you are against reciprocity so are many other Republicans. If you are for reciprocity so are many other Republicans. That is the only test here—you have to be for or against reciprocity in order to be a Republican in good standing."

Arthur W. Dunn.

The Sirolin Sentinel
"Fighting The Great White Plague"
NEWPORT, SATURDAY, APRIL 29, 1911.

YOU Can Be Cough, Cold and Consumption Proof.

SIROLIN, the gift of Switzerland to America, promises to put a decided check on consumption, through its power to prevent trifling Coughs and Colds from becoming serious maladies.

CONSUMPTION is caused by CARELESSNESS.

Neglected Coughs and Colds that weaken the system and leave the lungs and air passages breeding-places for the germs that cause "THE GREAT WHITE PLAGUE."

Coughs and Colds can be prevented—by taking Sirolin *in time*. "In time" means at the first sign of "catching cold"—the sneeze, the chilliness, the susceptibility to draughts—the aches that send their warning ahead.

A dose or two of Sirolin taken "in time" will almost inevitably prevent a Cough, Cold, La Crippe, or other ailment of the breathing passages.

Sirolin, the great Swiss remedy, is one of the miracles of modern medicine—a leading exponent of the trend of medicine towards the prevention of disease.

Those who keep Sirolin in the house, ready to take "in time," are IMMUNE against the most common, troublesome and dangerous of ailments—the host of diseases that affect the throat and lungs.

The remedial virtues of Sirolin are no less wonderful than its power of prevention.

In incipient Consumption, in deep-seated Coughs and Colds, La Grippe, Bronchitis, and Whooping-Cough its effects are quick and permanent.

The disagreeable symptoms quickly disappear, the appetite becomes keen, the bodily weight increases.

And yet, with this power to do GOOD, Sirolin is as harmless as water. It is without a single harmful ingredient—without a trace of narcotic drug.

Little wonder that Sirolin has been endorsed by throat and lung specialists of Europe—that its fame is spreading throughout the world.

Every druggist now has Sirolin or can get it for you.

A REPRESENTATIVE MEET.

College Athletes to Compete in Races and Sports in Philadelphia.

PHILADELPHIA, April 29.—One of the greatest aggregations of college athletes ever drawn together in a single meet will compete on Franklin Field this afternoon, in the seventeenth annual carnival of relay races and field sports, under the auspices of the University of Pennsylvania. While the eastern and western inter-collegiate championship meets are more important, today's carnival is the most representative college athletic meet held in the country. On the cinder path and in the field, approximately 1,500 athletes will represent nearly 250 educational institutions of the east, west, and part of the south, including universities, colleges, preparatory schools, academies, high schools, and grammar and parochial schools in the vicinity.

Big features on the track will be the one, two and four mile relay championships of America, the one-mile relay Freshman college national championships, and the onemile relay national championship for preparatory schools and for high schools. There were 42 events on the program and there will be no heats or preliminary trials in any event, except in the 100-yard dash and 120-yard hurdles. All colleges and other institutions entered in the one mile relay races, except in the national championship, will run in classes, according to past performances of their relay teams in the annual carnival. No points are scored in today's meet.

The weather today is fair and the track is pronounced to be in perfect condition.

IMPORTANT TOPICS DISCUSSED.

Relation of School to Child Welfare Considered at Mothers' Congress.

WASHINGTON, April 29.—The relation of the school to child welfare was considered today by the National Congress of Mothers' and Parent Teachers' Associations. The school as a meeting ground for parents and teachers, provision by cities of an adequate number of schools, ample space about the schools for play grounds, fire escapes for the buildings, manual training, provision for backward children, supports of the kindergarten by the cities, medical inspection of the school, and the opening of the schoolyards for the use of children during the summer, were some of the measures discussed. Among the speakers were Mrs. Walter Leroy Smith, Malden, Mass., Mrs. Scott Ratter, Washington, and Dr. Willard Small, Washington.

ELEPHANT TRAINER KILLED.

Infuriated Animal in a Wild West Show Attacks Its Keeper.

DIXON, Mo., April 29.—Hundreds of persons yesterday saw an infuriated elephant hurl its trainer into the air and then, after crushing him with its weight, repeatedly pierce the body with its tusks. The tragedy came while James Hildebrand, the trainer, was endeavoring to put the animal, which belonged to a wild west show, into a car. It is believed the trainer was killed instantly. Immediately after the tragedy the elephant was shot. Hildebrand had been the trainer for years, and frequently slept beside the elephant.

A SATISFACTORY SEASON.

Trans-Atlantic Inward Shipping Business Better Than Ever Before.

PORTLAND, Maine, April 29.—The trans-Atlantic steamship business for the winter of 1910-11 was completed today, with the sailing of steamer Megantic for Liverpool. The season has been satisfactory. The inward passenger business was better than ever before and the shipments of cattle were better. Apples were very scarce all through the season, but grain shipments were equal to previous years.

DRIVING PROSPECTS GOOD.

First Bank Logs of a Big Run Coming Down in New Brunswick.

FREDERICTON, N. B., April 29.—The first bank logs of a run totalling 10,000,000 feet have reached Springhill, a short distance above Fredericton, and the prospects for successful driving are good. Prices paid at the opening of the season are $10 for battens, $12 for spruce deal and about $8.75 for hemlock. Spruce prices are expected to advance.

TURIN AND ROME COMPETE.

International Exhibition Biggest Affair of Kind Attempted in Italy.

TURIN, Italy, April 29.—The international exhibition of industries and labor, the biggest affair of the kind ever attempted in Italy, was opened auspiciously today. There is a friendly rivalry between Turin and Rome, where the art exposition, the other great feature of the jubilee celebration of Italian unity, is in full swing and the result has been intense popular interest in both undertakings. The Turin exhibition occupies 12,000,000 square feet, extending on either side of the river Po, the two parts being joined by four bridges, two built especially for this occasion. The American pavilion comprises the largest exhibit ever made abroad by that government. In all there are 15,000 exhibitors, representing the European countries, North and South America, Japan, Persia, Siam, Turkey, Tunis and the British colonies.

Today the population of Turin, which is nearly 500,000 has been doubled by the visitors. Enormous crowds filled the exposition grounds. The inauguration was participated in by King Victor Emmanuel, Queen Helena, the Duke of the Abruzzi, foreign diplomats from Rome, Premier Giolitti, and his associates in the ministry, Francis B. Loomis, commissioner general from the United States, Albert H. Michelson, American consul at Turin and deputy commissioner, American Ambassador Leichman and Commander ouig, naval attache, at the American embassy.

Senator Rossi, mayor of Turin, welcomed the visitors, and Senator Frola, president of the general committee, thanked the sovereigns for their presence. Signor Nitti, minister of commerce, spoke for the government and Mayor Nathan of Rome brought greetings from the capital. At the conclusion of this program the queen touched a button releasing an electric current, that awoke to life the miniature city. Automatically the doors of the pavilion and galleries opened and the great engines generating light and power began to move and the fountain displayed. At the moment the bands struck up and the pent up enthusiasm of the tens of thousands of spectators was let loose in cheering that fairly shook the place.

ARBOR DAY IN BOSTON.

Schools Make Usual Parades, Planting Shrubs or Trees.

BOSTON, April 29.—City and town officials as well as the children of the grammar schools observed Arbor day in Greater Boston today with the customary planting of shrubs and young saplings which later will beautify the parks and playgrounds of the metropolitan districts. While the day was not recognized as an official holiday, the schools held their usual parades to parks and playgrounds, where the exercises of planting favorite shrubs or trees followed. Horticultural societies added new seedlings to the variety of garden foliage and Mayor Fitzgerald planted the customary elm on Boston Common.

MARCUS DALY'S DAUGHTER.

Mrs. H. C. Brown Dies Soon After Her Arrival in New York.

NEW YORK, April 29.—Mrs. Margaret Daly Brown, daughter of Marcus Daly, and wife of H. C. Brown, a banker, died at her mother's home on Fifth avenue this morning. Mrs. Brown's death came within a few hours after her arrival here on a special car, which brought her on a fast run from Montana. Her husband, mother, and other members of her family were at the bedside when death came.

Mrs. Brown was taken ill in Anaconda, Mont., where she had gone two weeks ago. The high altitude, it was said, imposed a strain on her heart and it was deemed advisable to bring her back to New York. A special car left Anaconda Tuesday with physicians and nurses. Mr. Brown met the returning party at Chicago. They reached the city last evening.

Mrs. Brown was married in 1901 and inherited several million dollars on the death of her father, who was long known as the "copper king."

WOODROW WILSON AT NORFOLK.

New Jersey Governor Principal Speaker at Pewter Platter Club.

NORFOLK, Va., April 29.—Governor Woodrow Wilson of New Jersey arrived here today to attend the banquet tonight of the Pewter Platter Club, at which he will be a guest of honor, with President E. A. Alderman, of the University of Virginia, and make the principal address. Today Governor Wilson will receive the members of the Woodrow Wilson Democratic Club, one of the first organizations formed to boom Mr. Wilson for the next Democratic Presidency nomination.

THIRD DETAIL NAMED.

More New Hampshire Officers to Witness Manoeuvres in Texas.

CONCORD, N. H., April 29.—Adjutant General H. E. Tutherly has named the third detail of officers of the New Hampshire National Guard, to the camp of the regulars in San Antonio, Texas, to witness the manoeuvres now in progress, as follows: Major Michael J. Healey, Manchester; Captain Eugene F. Sherburne, Manchester; Captain George F. Cullett, Berlin. Under the orders issued from state military headquarters, the men will report for duty at the camp May 11.

TAFT SCHEDULED TO SPEAK.

Society of International Law to Close With a Banquet Tonight.

WASHINGTON, April 29.—Speakers before the American Society of International Law here today included Professor N. Dwight Harris, Samuel B. Crandall, Dr. Harry Pratt Judson, Professor Lawrence B. Evans, Professor William I. Hull, Frank C. Partridge and Jackson H. Ralston. The meeting will close with a banquet tonight, at which Senator Root will be toastmaster and the speakers will be President Taft, the Japanese ambassador, Chief Justice White of the United States Supreme Court, Chief Justice of Canada Martin A. Knapp, and Representative David N. Foster of Vermont.

WORKED IN EVENING DRESS.

Society People Join Volunteer Crew at Brookline Club Fire.

BROOKLINE, Mass., April 29.—Society in evening dress joined a volunteer fire crew in fighting a brisk blaze which broke out in one of the buildings of the Country Club late last night. The fire started in one of the stables during a dance given by members of the club, the guests manning the club's fire apparatus during the delay caused by the two-mile run of the nearest town fire company. The fire was confined to the stables, five horses being suffocated by the smoke.

TO HEAD NAVAL ACADEMY.

Captain Gibbons Succeeds John M. Bowyer Who Resigns Because of Ill Health.

Captain John H. Gibbons, U. S. N. on duty with the General Board and formerly a naval attache at the American embassy in London, has been appointed superintendent of the Naval Academy at Annapolis, to succeed Captain John M. Bowyer, who resigns because of ill health. Captain Gibbons will assume his duties, May 15.

The appointment of Captain Gibbons was decided upon at the cabinet meeting after consultation between President Taft and Secretary Meyer. Captain Bowyer has been ill for some months, but has kept up by force of will. Entertainments at which he had been asked to preside next month made it evident that it would be a severe tax on his strength and he decided to ask to be relieved. He will be detailed to a post with less arduous duties so that he may recover.

Captain Gibbons is a native of Michigan. He has seen important service and is one of the popular and efficient officers of the navy.

GOOD RIFLE SCORES.

The scores at the weekly matches of the Providence Revolver Club Friday were about the average, except those of Almy and Biesel, who shot below their mark. Brooks, the scratch man, won the handicap with a good score. Coggeshall, after a close fight with Peckham, Thurston and Easton, finally took the Henderson match by one point. The single-shot match was won by Barker, Easton next, Coggeshall third.

Handicap Scores.

REAL ESTATE SALES.

George Brown has sold to Lampos Brown, and he has transferred to George and Angelica Brown, the estate bounded south on Long wharf, west on land of P. H. Horgan, north on land of the Old Colony Railroad Company and east on land of Thomas Sanways.

The heirs of the late Albert C. Landers, in order to carry out the wishes of the deceased in regard to the disposition of his estate and of his business, have made a trust deed of all the estate, real and personal, to William G. Landers and Albert C. Landers, Jr.

BOARD OF HEALTH BUSINESS.

The Board of Health held a meeting Friday evening, at which three licenses were granted. The resignation of Dr Keenan as a medical examiner of schools was accepted but the vacancy was not filled. It is expected that there will be another conference on the milk question with the farmers' committee at an early date.

The board will have the election of an inspector of food products when the Representative Council has fixed the salary of the inspector. It may be that it will ask for a special meeting of the Council to fix the salary, now that the Assembly has passed the act.

MRS. BURKE-ROCHE CUT OFF.

Receives No Specific Bequest, But Her Children Amply Provided For.

Fifteen Codicils to the Will of Frank Work Trace the Marital Career of His Daughter.

By the terms of the will and the attached 15 codicils of Frank Work, filed Friday his younger daughter, Mrs. Frances Ellen Burke-Roche, receives no specific bequest, but the executors are directed to keep a careful watch over her, and if she separates from Aurel Batonyi they are further directed to make suitable provision for her support. Since that codicil was executed she has obtained a divorce from Mr. Batonyi.

While making ample provision for the children of Mrs. Burke-Roche—Maurice Edmund Burke-Roche, Frank George Burke-Roche and Mrs. Cynthia Burke-Roche Burden—the testator makes the explicit direction that they shall be removed from the influence of their father. In order to share in the estate the grandsons must become American citizens, keep a permanent legal residence in this country and assume the name of Work in the place of Burke-Roche. The same provision was made regarding the granddaughter with the further one that she was forbidden to marry any one but an American citizen. She married Arthur Scott Burden several years before Mr. Work's death.

Mrs. Lucy Cooper Hewitt, wife of Peter Cooper Hewitt, elder daughter of the testator, will receive $50,000 a year for life and the use of the Work home, "Elm Court," in this city. The rest of the estate, with the exception of small bequests, is bequeathed in trust for the three grandchildren in equal shares, to go to their children absolutely, provided that the conditions of the will and codicils are complied with. Mr. Work made a special provision that his horse Edward should be suitably cared for during the animal's life and should never be worked.

In the 15 codicils of the original will, executed June 5, 1901, can be read the history of Mrs. Burke-Roche's matrimonial career and the bitter feeling while Mr. Work had for the man who had married his daughter. At the time of the execution of the will she had separated from James Jeffrey Burke-Roche, and it was provided that she was to receive $70,000 a year on condition that she have nothing more to do with him, or visit England during his lifetime.

Mr. Work showed his disapproval of the marriage of American girls with foreigners in his second codicil, when he provided that in the event of his granddaughter contracting a marriage with any one not a citizen of the United States all her interest in his estate shall cease and be divided among the other grandchildren who have complied with the conditions imposed.

The third codicil contains a reaffirmation of his opinion of the character of Mr. Burke Roche. The fourth codicil makes no important change, and in the fifth, executed July 26, 1904, he expressly desires and requests "that Frances Ellen Roche shall cease to exhibit horses or other animals in public shows or exhibitions," and provides that she must not have dealings with any one interested in or inducing her to make such exhibitions.

The eighth codicil, executed June 1, 1905, provides that Aurel Batonyi shall not be employed as superintendent or in any other way be connected with or domiciled at Mr. Work's Newport property, and, further, "that if my daughter, Frances Ellen, shall at any time fail to comply with my wishes as expressed in the fifth codicil, and particularly, if my daughter shall have any dealings, transactions or relations in business or by contract of marriage with Aurel Batonyi," her entire interest in the estate shall be reduced to $12,000 a year.

In the ninth codicil it is provided that the marriage of Cynthia Burke-Roche must be approved by her mother and the executors of the will.

The tenth codicil, executed July 26, 1905, increases the income of Mrs. Burke-Roche and Mrs. Peter Cooper Hewitt to $30,000 a year.

Mr. Work re-affirmed his dislike for foreigners and foreign countries in the eleventh codicil, executed December 23, 1905 by a provision prohibiting Mrs. Burke-Roche and her children from visiting England.

"I made these provisions" he said, "for the protection and benefit of my daughter and grandchildren, in the belief that they can find enough to interest, instruct and amuse them and all the varieties of climate at any time necessary or desirable for purposes of health in the United States."

"I hereby expressly provide," said Mr. Work in the twelfth codicil, executed January 6, 1906, "that my daughter, Frances Ellen, shall have no dealing or connection of any kind with one Aurel Batonyi, and in the event that she shall marry the said Batonyi she shall forfeit all interest of every kind in my estate."

At the time of the execution of this codicil Mr. Batonyi and Mrs. Burke-Roche had married, although the announcement was not made until months afterward. They were married August 9, 1905, and the first information concerning it was made public in July, 1906. Mr. Work's state of mind toward the marriage can be seen in the thirteenth codicil, executed July 24, 1906, in which he said: "I hereby revoke all provisions in my will conferring any interest in my property to my daughter, Frances Ellen. No other children of hers other than there named are to share in my estate."

In the same codicil he provides that the grandsons are to have the use of the Work home, 13 East Twenty-fifth street, New York, and are to become citizens of the United States within one year after his death.

Although there was no intimation to the public on April 13, 1907, that Mr. and Mrs. Batonyi were to separate, Mr. Work evidently had some knowledge that this was to happen, for on that day he made the fourteenth codicil. He provided that his grandsons should have all his guns and accoutrements, and then said:

"I direct that my executors at all times keep a careful watch over my daughter, Frances Ellen, and should she separate from Mr. Batonyi and be in need I authorize and empower and direct them to make suitable provision for her support and to set aside

[Continued on Third Page.]

ICE AND REFRIGERATING PLANT.

New Feature of the Berwind Estate, Under Ground and Separate from the Main Structure.

The sum of $30,000 is being expended at "The Elms," Mr. E. J. Berwind's estate on Bellevue avenue, in the installation of an ice and refrigerating plant. The cottage is already in possession of such an adjunct, but it has been located in the basement of the main structure, and the vibration caused by its operation has been objectionable in the house. It is now being changed to underground chambers, separate from the main structure, and yet in no way changing the appearance of the layout of the grounds. Ever since the house was built there has been an underground way from Dixon street for taking in coal, so that this is not the first effort on the premises to conceal a necessity which may have some unpleasant features if on the surface.

The new garage and stable is reaching completion and one might say is ready for occupancy, while a large force is busy in preparing roads, building lawns and modeling the landscape features. When the work is completed and nature has done its work the results promise to be gratifying. Probably no estate on the Avenue has within its boundaries such a variety of landscape and architectural features blended together as on this place, and a walk around when they are in their full glory is a series of surprises.

ARMY PROMOTIONS.

Nominations Sent to Senate for Advancement of Coast and Field Artillery Officers.

The following nominations for promotion of officers of the field artillery have been sent to the Senate:

Lieutenant colonels to be colonels—Eli D. Doyle, sixth field artillery; Granger Adams, fifth field artillery; Edwin St. J. Greble, third field artillery.

Majors to be lieutenant colonels—Edward A. Millar, fifth field artillery; Samuel D. Sturgis, first field artillery; John Conklin, second field artillery; Lucien G. Berry, third field artillery.

Captains to be majors: William J. Snow, sixth field artillery; George G. Gatley, third field artillery.

First lieutenants to be captains: Joseph F. Barnes, second field artillery; William P. Ennis, first field artillery.

Second lieutenants to be first lieutenants—John G. Tyndall, fourth field artillery; Alfred L. P. Sands, sixth field artillery.

The following nominations for promotion of officers of the coast artillery corps have also been sent to the Senate:

Lieutenant colonels to be colonels—William C. Rafferty, Millard F. Harrison, Frederick S. Strong, detailed adjutant general; Warren P. Newcomb, Clarence P. Townsley, Charles J. Bailey, Charles H. Hunter, Charles L. Phillips.

Majors to be lieutenant colonels—Isaac N. Lewis, John D. Barrette, Gustave W. S. Stevens, Wirt Robinson, George W. Gatchell, Willoughby Walke, Harry L. Hawthorne, Elmer W. Hubbard, Richmond P. Davis, George F. Landers, Ira A. Haynes.

Captains to be majors—Alston Hamilton, Joseph L. Knowlton, Robert E. Callan, Clarence H. McNeil, Percy M. Kessler, George T. Patterson, Robert S. Abernethy, John C. Gilmore, Jr., Joseph Wheeler, Jr., Edwin Landon, Joseph P. Tracy, Johnson Hagood, Frank K. Ferguson, Edwin O. Sarratt.

First lieutenants to be captains—Graham Parker, Richard Furnival, Ralph E. Herring, Norris Stayton, George A. Taylor, William E. DeSombre.

Second lieutenants to be first lieutenants—Edwin K. Smith, John B. Maynard, Clarence T. Marsh, Jacob Frank.

FOR EUROPEAN CRUISE.

Secretary Meyer Announces Itinerary of Second Division of the Atlantic Fleet.

Secretary of the Navy Meyer has made public the itinerary of the Second division of the Atlantic fleet on its coming European cruise. This division, composed of battleships Louisiana, South Carolina, Kansas and New Hampshire, will be at Copenhagen, Denmark, from May 25 to June 1; at Stockholm, Sweden, from June 3 to 10; at Reval, Russia, from June 11 to 18, and at Kiel, Germany, from June 21 to 30.

The itinerary of the Third division, composed of the Minnesota, Vermont and Mississippi, during the months of May and June is as follows: Leave Philadelphia May 1; arrive at Pensacola May 8 and leave May 24; arrive at Mobile bay May 24 and leave May 28; arrive at Galveston May 30 and leave June 5; arrive at Pensacola June 7 and leave June 23, and arrive Provincetown July 1.

The Idaho will make this cruise: Leave Philadelphia May 4; arrive at New Orleans May 10-11 and leave May 25; arrive at Donaldsonville, La., May 15 and leave May 26; arrive at Plaquemine, La., May 16 and leave May 17; arrive at Baton Rouge, La., May 17 and leave May 20; arrive at Bayou Sara, La., May 20 and leave May 22; arrive at Natchez, Miss., May 22 and leave May 25.

The Idaho after leaving Natchez will visit Vicksburg for three days if the conditions of the Mississippi river permit, and then will proceed to Pensacola and rejoin the division.

THE LOBSTER CULTURE.

Progress and Results of Work in This State Shown in Inland Fisheries Report.

The forty-first annual report of the Commissioners of Inland Fisheries, received from Commissioner Daniel B. Fearing, is a well prepared digest of the work of the commission for the past year. It gives a record of the fishing business, and shows that there was a falling off in the catch, both fish and lobsters some of the causes therefor being noted. The danger of destroying the local fisheries is considered in a thoughtful manner, and the artificial propagation of flatfish and clams receives consideration.

Considerable space is given to the proposed change in the lobster law, which has been killed in the Assembly, and one can see the reasons leading the commissioners to suggest the change in regard to length. They are the reasons of thoughtful men. There is a resume of reports of several years past, for comparison, and attention is given to the matter of the culture of lobsters, in which during the past year there has been material progress. Good records had been made before in the propagation of lobster fry. But the improvements made during the past year have enabled the workers to bring this to a state of perfection not before believed possible. From a counted lot of 10,000 lobster fry, less than one day old, 6,946, or a little less than 70 per cent, were reared to the bottom stage. The best previous record was 50.6 per cent. When this is compared with 21 per cent, the best record at Woods Holo, the great increase in the efficiency of the Wickford station and the success attained by this state may be somewhat appreciated.

FUNERAL OF JAMES SULLIVAN.

The funeral of James Sullivan, for many years employed by the Gas Company, and who had been confined to his home by illness for nearly a year, took place this morning from St. Joseph's Church, where Father Mahon conducted the requiem mass and the service for the dead. The interment was in St. Mary's cemetery. Division No. 1, Ancient Order of Hibernians, of which the deceased was a member, attended in a body and furnished the bearers, who were Michael Brennan, Michael Hanley, James Collins, Jeremiah Sullivan, Jeremiah Harrington and Patrick Connell.

EASTERN STAR BARN DANCE AND WHIST.

Aquidneck Chapter, Order of the Eastern Star, had a social Friday evening in the form of a barn dance, in the stable of Mr. Fred W. Lawton on Green street. The place was attractive with huntings and flags, and fresh paint and rugs made matters pleasant. Whist was played, prizes being won by Mrs. Herbert Bliss, Mrs. Robert Biesel, Mrs. Fred Hummell, Miss McCormick and Messrs. Johnson and Wordell. After the whist there was dancing, with music by Knowe's orchestra, and refreshments were served.

CLOTHING

Smart Summer Woolens for Suits and Overcoats.

Edward Otto, Tailor and Importer, 244 Thames St.

CLOTHES Properly made from good fabrics ensure complete satisfaction.

We use the best materials the market can afford and TAILOR you clothes that are out of the commonplace, both in style and appearance.

Our spring line is now ready and includes all the NEW THINGS for men's wear.

STEAMERS NOT SOLD.

Reports That the Massachusetts, Old Colony and Bunker Hill Had Changed Hands Untrue.

A Boston despatch says there is no truth in current New York reports that the New England Navigation Company has sold its steamers Massachusetts, Old Colony and Bunker Hill to a company which proposes to ply them along the Pacific coast. The rumor probably arose from the fact that the Metropolitan Steamship Company some time ago sold to a Pacific Coast company its steamers Harvard and Yale, which for the past two years have been operated as a summer "outside" line between Boston and New York.

Much money has been put into remodeling the three New England Navigation Company boats from freight steamers into high-class passenger and freight boats. They are expected to begin initial daily runs between Boston and New York about the middle of June, and one of them may be run between New York and Portland. Their service will take the place of that by the Harvard and Yale, and will be operated through the Maine Steamship Company, all the stock of which is owned by the New England Navigation Company.

THE NEW BELLEVUE AVENUE ROADBED.

The work of putting a new roadbed in Bellevue avenue has progressed as far as Mill street and the road is open to Redwood street. Below, the steam roller working up from the south end of the Avenue has reached Webster street. The road has been re-surfaced, but the two pieces of wooden curb in front of the d'Hauteville place are still in position, instead of being replaced by stone when the work was progressing past that point.

GOVERNOR BALDWIN FAVORS FLOGGING.

In his welcoming address to the state conference of charities and corrections Governor Simeon E. Baldwin of Connecticut advocated a return to whipping with a birch rod or leather strap, as a corrective measure for bad boys and for grown men whose offences involve great personal violence or indignity to another. The governor also said the effect of excess in levity, in open-handedness and in sympathy has been to feed and house the inmates of public charitable institutions better than ever. He added: "The dietary is made up as well to tempt as to satisfy the appetite, and very often so as to overload the stomach and foment disease."

AUCTION SALES.

STORE FIXTURES AT AUCTION,

212 Thames St., at 12 o'clock,

ON MAY 1st,

All the fixtures in the Store consisting of Shelving, Drawers, Counters, Marble Counter Tops, Marble Flooring, etc.

FRED W. GREENE, Auct'r.

We carry in stock at all times a complete line of

THE LAPPIN STORE.

SPRING HATS, COATS AND DRESSES

Of sweet simplicity for Little Miss Muffet and her big sister.

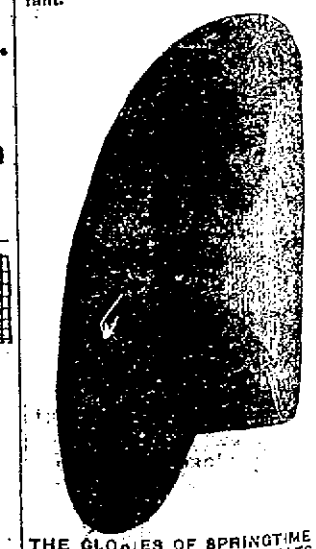

Of course she wants a new hat, coat and dress! Mother and big sister get new spring things and she wants them too. The mushroom shaped straw hats and straw and ponges auto bonnets seem to be the preferred shapes for her this year, priced from 50c. up to $4.98.

The Kimona Dress, low neck and short sleeves, the most preferred styles although we show lots of high neck, long sleeved dresses from 50c. up to $4.98.

The preferred coats are serges, flannels, pongees and shepherd checks. Some reefer styles in flannel at 39c. Priced from $1.98 up to $7.98.

Also beautiful assortments of pretty dainty things for the newly born infant.

THE GLORIES OF SPRINGTIME IN LITTLE BOYS' STRAW HATS.

You have first choice who get straw hats now. They are ready today at The Lappin Store. The variety here includes everything that is new; the collection is so large that you are sure to find the hat you want; the kinds that have the correct style. Prices 50c. to $1.49.
